GROWER OF FINE ENGLISH HOLLY

(Original Plantings in 1902)

## Tremper Holly Farm

BELLEVUE, WASHINGTON

"Oh what, my dear, of Christmas cheer could any one wish more  
Than candle-light and you within, and holly at the door?"

Dear Friend:

If, as has been said, it takes two to make a Christmas present, the giver and the receiver, you as the giver will want to send the present that will most clearly carry your message of regard, affection and love.

How can this better be done than with the traditional emblem of Christmas,--- the Holly branch or a beautiful Holly wreath? Its lustrous, dark green leaves and bright, shining, red berries will make your holidays happier and will most appropriately convey to your friends your fondest Yuletide message.

With gifts of English Holly you can avoid tiresome shopping excursions. It is easy to do --- simply fill in the enclosed order blank and mail it to me.

We do the rest --- forwarding fresh cut selected boxes, carefully packed, bright, fresh and cheery to arrive at their destination several days before Christmas. The Christmasy label on the box will indicate you as the sender, but if you wish to have your own cards enclosed just send them with the order.

All charges will be prepaid and satisfaction to you in every respect is unconditionally guaranteed.

Yours very truly,

Tremper Holly Farm

(Please make your selections from those on the reverse side)
